### Disclaimer

Bricks are made from earth elements- clay, sand minerals, etc. Just as these materials vary in their natural form, the end result after mixing, processing and firing will produce variation in colours and sizes, even from the same batch (and more so from batch to batch). For this reason, technical specifications may exhibit slight variation from product to product and from test to test (test results disclosed in this brochure are typical and not guarantees of minimum or maximum threshold of performances.)

*This document constitutes general information only and is not intended as any representation of warranty by Hap Seng Clay Products Sdn Bhd or its distributors or agents AND we reserve the right to amend the color range or specification of products at any time and without notice. Intending purchasers should confirm all specifications and product availability. Hap Seng Clay Products Sdn Bhd assumes no responsibility for any act or action taken that is contrary to our recommendations or the part of any person or entity to whom the product has been sold to. Care has been taken to ensure that all information is correct at the time of printing. Product colours and patterns shown are as accurate as the limitation of the printing process will allow.*
